

Kristopher Cabreira

Kristopher Cabreira has been on a Sutter Health PFAC since May 2017. A few months ago, he was selected as a co-chair of the same council and has been approved to join another Sutter Health affiliate on their PFAC. He has also worked in healthcare for 17 years in many various hospital healthcare corporate departments; for a short period of time, he was a Patient Relations Officer, which helped him see more from a patient's point of view. His desire is to help patients and their families have the best healthcare experience possible.
